

# Accessibility Plan 2024 - 2025

This plan outlines the proposals of the governing body of Abingdon School to increase access to education for all pupils with disabilities in response to the Special Educational Needs and Disabilities Code of Practice 2014: 1 to 25 years, to ensure that no pupil, adult or parent feels disadvantaged in any way.

## **Definition of SEND**

'A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her.

A child of compulsory school age or young person has a learning difficulty or disability if he or she

- has significantly greater difficulty on learning than the majority of others of the same age or

- has a disability which prevents or hinders him or her making use of facilities of a kind generally provided for others of the same age in mainstream schools or colleges.'

(SEND Code of Practice 2014)

The plan addresses the three areas required by the planning duties in the Equality Act 2010.

1. Increasing the extent to which pupils with disabilities can participate in the school curriculum.

2. Improving the environment of the school to increase the extent to which pupils with disabilities can take advantage of education and associated services.

3. Improving information delivery to pupils with disabilities.

The governing body also has responsibilities towards employees with disabilities and will:

monitor recruitment procedures to ensure that persons with disabilities are provided with equal
 Opportunities.

- ensure that employees with disabilities are supported with special provision to ensure that they

can carry out their work effectively without barriers.

- undertake reasonable adjustments to enable staff to access the workplace.

All school policies should be checked to ensure that they do not, unintentionally, treat pupils with disabilities less favourably.

## <u>Aims</u>

We aim to:

- provide full access to facilities and learning
- enable full participation in all aspects of school life for children, staff, parents and visitors

with disabilities

We will do this by:

- reducing and eliminating barriers to access of the curriculum and building
- promoting positive attitudes and developing a culture of respect
- having awareness of the needs of individuals within our school community
- being flexible in approach to obstacles and seeking expert advice if needed.

#### Current position

- The school building is accessible for pupils with physical difficulties and flat outside play areas.

- Toilet for disabled pupils on both floors.
- Learning Mentor/Pastoral Manager to support vulnerable pupils and their families.
- Recent whole staff training on Autism and ADHD
- Access to appropriate outside agencies e.g. Sensory Support Service, Occupational Therapy,

Physiotherapy, Speech and Language.

- Teaching assistants who can deliver interventions and therapy programme.

The action plan below identifies the key activities to ensure all three planning duties are being addressed.

#### Activities to increase accessibility.

# Monitoring

This plan will be resourced, implemented, reviewed and revised in consultation with governors, staff and parents. It will be reviewed at least annually by the SENDCo, HT and governors.
